Comments:

A separate class participation form is required for each class at each grade level that participates in the 2018 BC AHS. The completed form should be attached to the corresponding class's completed surveys.

There may be situations where the calculations for the total # of eligible students will not add up to the total # of students eligible to complete a survey, such as if a parent refusal is sent in by a student who is absent on the day of the survey. Please make note of these in the comments.
